January 19, 2009

Please let this serve as a letter of endorsement for the Capitol Youth Empowerment Program. What CYEP and their Executive Director, Erick King are trying to do will motivate an entire generation to be more involved with their children and take responsibility for the children that are out there with uninvolved parents.

Every day I see angry and hurting children that are not reaching their full potential because their focus is not on being great but instead on where the man called dad is and why he has abandoned them. CYEP is stepping out and showing action instead of just talk. By reaching out and engaging fathers, they are adding healing to once wounded children who can now focus on life's important measures rather than where dad is.

This is possibly the most important program that anyone can back in our country. Involved fathers will help improve school drop out rates, crime rates, overall academics, suicide rate as well as touch the heart of children who need to be more innocent than angry.

Sincerely,

Coach Tony Pierce

President
